When and where you sit, what and how you cook for dinner, your sleep patterns and movements in bed, the patterns of foot-falls on area rugs and carpets, when and how you open doors, how and of what sort of bathroom behaviors — all of these can be captured, analyzed, shared and sold. IKEA is the #1 source of beautifully designed, well-constructed and assembled essentials for your home that give you control over your sensed behaviors.

Your data makes all the difference!

You’ve heard Ari Birnbaum saying, "Your data is your life". IKEA Tillsammans now provides a way for you to ‘share your life data’ to help advance the world. With contributions of your life data analytics (or portion thereof) you will be providing a wealth of insights, personal perspectives, thoughts, images, experiences and opinions in a partially-completely anonymized fashion. Your data* informs political decisions, creates laws, builds attention for social, economic and interpersonal issues.

Complete analytic visibility to see how your data is being used, what actions it informs, what lives it saves where, who imitates who, whose lifestream is authentic and whose lifestream is a reflection of their sense of inadequacy or regret, what issues your data creates and/or enforces. Join the world, even more than before. Contributions are often tax-deductible in most regions proportionate to your level of openness and unprivacy.

* US/EU regulations require us to release data on request to relevant agencies. Payment of a subscription is not a guarantee of privacy.
Enjoy the comfort of your home..
